

Amended

a chassis having a first wall and at least one second wall that extends substantially perpendicular to the first wall; the separation optical elements, the light panels and the synthesizing optical system secured so as to be constrained against movement relative to the first wall; and
an outer case attached to the at least one second wall of the chassis.

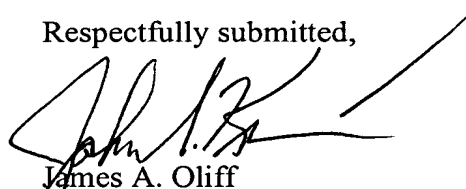

REMARKS

Claims 1-24 are pending in this Application. By this Amendment, claim 5 is amended for clarification purposes only. In particular, the first comma in line 12 of claim 5 has been replaced by a semi-colon for clarity. Furthermore, the original patent is attached to this Amendment in accordance with 37 C.F.R. §1.178.

Entry of the amendments to claim 5 is proper because the amendments do not effect the scope of the claims and are necessary for proper disclosure. Furthermore, there is no substantial amount of work necessary by the Examiner to review and approve these changes.

Should the Examiner desire any further amendments or information, the Examiner is invited to contact Applicant's undersigned attorney at the telephone number listed below.

Respectfully submitted,
